"EXPECT THE BEST"

In today's hectic and rapidly changing world, many of us feel overwhelmed, overworked and underappreciated. *It doesn't have to be that way!*

Chuck Cote is going to show us how we can achieve excellence, whether it's personally or professionally, when we **Expect The Best and Take Responsibility for Getting It!** As a professional speaker, business consultant and author that's what he inspires and energizes people to do.

About Chuck Cote

As President of The Chuck Cote Company, LLC he works with individuals and organizations across North America and is an expert in public speaking, business development and leadership. His business background includes over thirty-five year's experience in the corporate world and as an entrepreneur.

Chuck's first job was with Xerox Corporation where he set sales records and won numerous performance awards. He then joined Printing Pendell Inc. as a Division Manager and finished his career as Executive Vice President. During this time he helped Pendell grow from sales of \$4 million and modest profits to \$70 million in sales and record profits.

As an entrepreneur, he has started and managed four companies ranging from graphic design & marketing, leadership training & development, rubber recycling, and the speaking, writing and consulting business.

Chuck is also a two-time cancer survivor who beat an advanced stage of throat cancer in 2000 and skin cancer on his nose in 2005.

He is a graduate of Michigan State University with a Bachelor of Arts in Communications. Before college he spent three years in the United States Marine Corps and served a tour of duty in Vietnam.
